

U-CAR ROLL CAGE DIAGRAM

- A. - Seat Brace**
- B. - 3/16 Plate**
- C. - Main hoop 1³/₄ A4 steel tube**
- D. - Bottom seat brace**
- E. - Brace 1³/₄ steel tube**

Main hoop to be no less than 1³/₄ steel tube to be welded each joint.

Main loop and rear brace must have steel plate bottom to be bolted or welded to floor behind driver.

Use stock seat and 3" racing seat belts and harness bolted to bar and back rest to roll bar.

Working window nets are **MANDATORY!** Full cage optional as long as it stays inside passenger compartment.

No bars allowed outside of firewalls. Rollbars in driver's compartment must be padded.
